Martin Capital Advisors awarded “Top Guns” rankings

(San Antonio, Texas)--- Martin Capital Advisors, LLP (MCA), a money management firm with offices in San Antonio and Austin, has been awarded 15 “Top Guns” rankings by Planned Sponsor Network (PSN), a leading money manager performance database, for investment performance for the last quarter, year, three years and five years, as of March 31, 2012. *MCA Flexible Portfolios* were ranked “Top Guns” in the PSN “All Cap Equity” universe, and *MCA Balanced* and *Conservative Portfolios* were ranked “Top Guns” in the PSN “Balanced” universe. Also, the *MCA Flexible Portfolios* were ranked “Bull and Bear Masters” – top ten out of over 3,300 equity composites for performance in both bull and bear markets.*

“The PSN “Top Guns” rankings achieved by Martin Capital’s investment portfolio strategies confirm the value of our “buy and hold” discipline. We build wealth over time by keeping winners and selling losers,” said Paul Martin, Managing Partner and Chief Investment Officer.

MCA was founded by Paul Martin in 1989. The performance of the firm’s investment portfolios over the past two decades has often been ranked at or near the top of all diversified investment strategies.

* Informa Investment Solutions created the “All Cap Equity” and “Balanced” universes using information collected through the Planned Sponsor Network (PSN) investment manager questionnaire. The returns used in determining the ranking do not reflect the deduction of investment management fees. “Top Guns” rankings are awarded quarterly for the top ten investment portfolio composites in designated investment universes for periods from three months to five years. The “All Cap Equity” universe consists of investment products investing in large, mid and small cap equities, and the “Balanced” universe consists of investment products investing in both equities and fixed income for which managers responding to the PSN manager questionnaire responded “All Cap” or “Balanced” as their primary asset allocation. The universe of “All Cap Equity” managers who reported to the PSN database for consideration is comprised of 354 managers and 508 investment products. The universe of “Balanced” managers who reported to the PSN database for consideration is comprised of 168 managers and 249 investment products. PSN database information is intended for use by qualified investment professionals. Please consult with an investment professional before making any investment using content or implied content from the “Top Guns” rankings. **Past performance does not guarantee future results. There is a possibility of loss.**
